SKILLS

- Data structures
- Javascript
- MongoDB
- GIT
- SQL
- HTML
- CSS
- Python
- AWS

Hackathon Experience and Web Development

I've joined four hackathons, acquiring hands-on web development skills and building impactful webpages. These experiences have boosted my enthusiasm for future competitions.

ABOUT

I am pursuing a Computer Science degree and have a knack for solving problems. I thrive in guiding and motivating teams and enjoy developing practical software solutions.

- Achieved 3-star rating on CodeChef
- Completed 150 problems on LeetCode
- Enthusiastic about Data Structures and Algorithms (DSA)

PROJECTS

PERSONAL PORTFOLIO

My personal portfolio showcases my skills and experience in web development, including projects in front-end and back-end development. It provides a user-friendly experience with clear navigation and interactive elements. Explore my portfolio to see my work and get in touch to discuss potential collaborations.

SKILL SWAP

Skill Swap Network is a platform that facilitates peer-to-peer learning through mentor-mentee relationships. Users can share their expertise by becoming mentors and learn new skills by connecting with mentors in their desired field. This fosters a collaborative learning environment where individuals can exchange knowledge and grow together.
